

Transition Box

AERIAL & UNDERGROUND NANO

DESCRIPTION

Introducing the IP68 Transition Box:
Your Ultimate FTTH Network Solution!

The IP68 Transition Box is a game-changer designed for installation in manholes or on poles. It's your go-to solution for connecting or maintaining FTTH networks.

This versatile box handles external to internal cable transitions, property demarcation, cable repairs, extensions, and network burial with ease.

With the capacity to manage two cables on each side and splice four optical fibres, the IP68 Transition Box ensures seamless and reliable connectivity, making it an indispensable tool for modern fibre optical networks.

Get ready to experience a new level of efficiency and performance with this robust and practical solution.

PRODUCT FEATURES

- Ultra-compact and discreet design
- IP68 certified for underground and aerial use
- UV-resistant for enhanced durability
- Perfect sealing with high-quality silicone gel
- Easy installation: no accessories
